The Board of Investment (BOI) requires promoted businesses to submit quarterly progress reports through the e-Monitoring system.

The Office of the Board of Investment (BOI) has stipulated that businesses receiving investment promotion must report their project progress via the e-Monitoring system on a quarterly basis, specifically in March, June, September, and December of each year. This requirement applies from the date the promotion certificate is issued until the operating license is obtained. Reports must be submitted within 60 days from the end of each quarter, as follows:

Reporting Period	Coverage Period	Submission Deadline
Quarter 1	January – March	By 30 May
Quarter 2	April – June	By 29 August
Quarter 3	July – September	By 29 November
Quarter 4	October – December	By 1 March of the following year

This announcement is effective from 20 April 2026.

For projects that receive their promotion certificate during a quarter, the first progress report must be submitted in the following reporting quarter. Even if the company's accounting period does not align with the quarterly periods prescribed by the BOI, the company is still required to adhere to those prescribed quarters for reporting purposes. In addition, if a company has already submitted a progress report in February 2026, it is still required to submit the quarterly report covering January to March by 30 May 2026, since the previously submitted report only covered the period from October to December 2025.

If a company fails to submit the report within the specified deadline, its access to the system for investment promotion privileges will be suspended. Access will be restored only after all required reports have been fully submitted. Furthermore, if the company fails to submit reports on time for two consecutive periods, the BOI may consider revoking the company's investment promotion privileges.
